Dissertation:

  (Verfügbar: webdoc.gwdg.de/diss/2002/schmidt_thomas/)

Habilitationsschrift:

Eingeladene Vorträge:

Antrittsvorlesungen:

**Vorträge im Rahmen des Habilitationsverfahrens:**

**Vorträge im Rahmen von Berufungsverfahren:**

**Vorträge auf Konferenzen:**

• Schmidt, T., & Hauch, V. (2010). *Response inhibition by primes and masks in the negative compatibility effect: It's not the prime, it's not the mask, and is it even inhibition?* 43. Herbsttreffen experimentelle Kognitionspychologie, Halle, Germany.

• Schmidt, T. (2001). *Priming the kinetics of pointing movements: Online control by barely visible isoluminant color stimuli.* 6th Meeting of the Cognitive Science Association for Interdisciplinary Learning, Hood River, Oregon, USA.

Poster auf Konferenzen:

• Schmidt, T., & Hauch, V. (2010). Qualitative differences between fast response priming and the negative compatibility effect. 33rd European Conference on Visual Perception, Lausanne, Switzerland.

• Schmidt, T., & Fehr, J. (2002). *The finger in flight: Real-time motor control by visually masked color stimuli.* 43rd Congress of the German Psychological Society, Berlin, Germany.

• Schmidt, T. & Werner, S. (2000). Spatial distortions in visual memory do not form a linear system. 41st Annual Meeting of the Psychonomic Society, New Orleans, USA.

Vorträge als Koautor:

**Poster als Koautor:**

Panis, S., & Schmidt, T. (2016). Turning a horse into a unicorn: How a double dissociation can be produced by custom-made mask functions in a response-priming experiment. 49th Herbsttreffen Experimentelle Kognitionspychologie, Tübingen, Germany.

Panis, S., & Schmidt, T. (2015). The time course of positive and negative congruency effects in masked priming. 9th Rovereto Workshop on Concepts, Actions, and Objects, Rovereto, Italy.
